

## How Can My **Out-of-State** Employees be Covered?

Just because your business works in another state doesn't mean you have to get workers compensation there. CopperPoint can handle your coverage in California, Colorado, Nevada, Texas or wherever you've got employees.

Through a partnership with Argonaut Insurance Company, CopperPoint can keep your out-of-state workers covered if you are an Arizona-based company.

You'll get the same great CopperPoint service as if the workers were here in Arizona.

### Here are the highlights:

- CopperPoint offers Arizona businesses **coverage in other states**.
- Marketed, underwritten and priced by CopperPoint Insurance Companies.
- Policies are administered through Mountain West Agency Services, a wholly owned subsidiary of CopperPoint Mutual Insurance Company. Workers compensation claims are handled by Argonaut Insurance Company.

Contact your Mountain West Agency Services representative for additional information.
